SEAL Committee Parts Ways with Advising Technical Consultant

(August 16, 2026)- S.ealed E.ngine A.lliance L.eaders (SEAL) committee members announced today that effective immediately, former Advising Technical Consultant Rick Davis no longer serves in any capacity with the committee. Racers and engine builders should no longer seek advice, support or counsel for any official matters involving the SEAL committee.

Questions concerning rules or clarification should go directly through the administration leg of the SEAL committee by reaching out to SEAL lead administrator Nicholas Rogers via email at nicholasfrogers@outlook.com. Important responses, clarifications and/or changes, will be made through official and transparent notifications with all SEAL leaders included in the responding communication.
